Prediction Details

Result: Tumor: Glioma

Confidence Score: 93.45%

Recommendations

1. Immediate Next Steps:

- Step 1: Schedule a consultation with a neurosurgeon/oncologist.
- Step 2: Undergo further diagnostic testing (e.g., biopsy) to confirm diagnosis and tumor grade.

2. Potential Treatment Options:

- Option 1: Surgery
- Option 2: Radiation therapy

- Option 3: Chemotherapy

3. Monitoring or Lifestyle Recommendations:

- Rec 1: Quit smoking immediately.
- Rec 2: Genetic counseling is recommended due to family history.
- Rec 3: Improve sleep hygiene to achieve at least 7-8 hours of sleep per night.
