

Brain Tumor Analysis Report

Generated on: 2025-03-15 23:46:59

Prediction Details

Result: Tumor: Meningioma

Confidence Score: 99.83%

Recommendations

1. Immediate Next Steps:

- Step 1: Schedule a consultation with a neurosurgeon specializing in meningiomas.
- Step 2: Undergo further diagnostic testing as recommended by the neurosurgeon (e.g., biopsy).

2. Potential Treatment Options:

- Option 1: Surgery
- Option 2: Stereotactic radiosurgery (SRS)
- Option 3: Observation (for small, slow-growing tumors)

3. Monitoring or Lifestyle Recommendations:

- Rec 1: Maintain regular follow-up appointments.
- Rec 2: Discuss any new neurological symptoms with your doctor immediately.
- Rec 3: Maintain a healthy lifestyle, including a balanced diet and regular exercise (as tolerated).
