

Brain Tumor Analysis Report

Generated on: 2025-03-15 23:45:05

Prediction Details

Result: Tumor: Meningioma

Confidence Score: 99.96%

Recommendations

1. Immediate Next Steps:

- Step 1: Schedule a consultation with a neurosurgeon specializing in meningiomas.
- Step 2: Arrange for a biopsy to confirm diagnosis and determine tumor grade.

2. Potential Treatment Options:

- Option 1: Surgery (craniotomy) to remove the tumor.
- Option 2: Stereotactic radiosurgery (SRS) or Gamma Knife surgery for smaller, less accessible tumors.
- Option 3: Observation (watchful waiting) if the tumor is small, slow-growing, and in a non-critical location.

3. Monitoring or Lifestyle Recommendations:

- Rec 1: Maintain regular follow-up appointments with your neurosurgeon.
- Rec 2: Keep a detailed record of any new symptoms.
- Rec 3: Discuss any concerns or questions with your healthcare team.
