Gender	Male

Prediction Details

Result: Tumor: Meningioma

Confidence Score: 99.94%

Recommendations

1. Immediate Next Steps:
 - Step 1: Schedule appointment with neurosurgeon specializing in meningiomas.
 - Step 2: Arrange for a biopsy to confirm diagnosis and tumor grading.
2. Potential Treatment Options:
 - Option 1: Surgical resection.
 - Option 2: Stereotactic radiosurgery.
 - Option 3: Observation (if benign and slow-growing).

3. Monitoring or Lifestyle Recommendations:

- Rec 1: Quit smoking immediately.
- Rec 2: Increase sleep to 7-9 hours nightly.
- Rec 3: Genetic counseling recommended due to family history.
